Internship/Experience

Internship | InternMay 2026 – July 2026

Indian Institute of Technology Ropar – Rupnagar, Punjab

Working as an Intern at IIT Ropar, contributing to research and development activities. Assisting in project implementation, data analysis, documentation, and collaborative problem-solving while gaining practical exposure to advanced technologies and research methodologies.

Projects

Job Portal websiteMar 2026 – Apr 2026

- Developed a Job Portal Website as a group academic project using the MERN stack. The platform allows job seekers to create profiles, search and apply for jobs, and track application status. Recruiters can post job openings, manage applications, and view candidate profiles. Implemented secure user authentication, role-based access control, job management modules, and responsive user interfaces. Contributed primarily to backend development, including API creation, database design, authentication, and server-side functionality. The project improved understanding of full-stack web development and collaborative software development practices.
- Tools/Tech. Used:** MongoDB, Express.js, React.js, Node.js, JWT Authentication, REST APIs

Amazon Clone WebsiteMar 2026 – Mar 2026

- Developed a responsive Amazon Clone website using HTML5, CSS3. Implemented a homepage similar to Amazon with navigation bar, product sections, search functionality, footer, and responsive design. Improved front-end development skills by working on webpage layout, styling, and user interface design. The project helped in understanding website structure, responsiveness, and modern web development practices.
- Tools/Tech. Used:** HTML5, CSS3

Key Skills

css express.js Html Javascript mongodb node.js react.js

Certifications

- Software Engineering - NPTELApr 2025
- AI and Cybersecurity Awareness (AI for All) - TCS iONMay 2026
